# PHILOSOPHY

1

UPHOLD FAIRNESS

2

DEDICATE TO QUALITY

3

HONEST AND PUNCTUAL

4

WORK TOGETHER AS A TEAM

## VISION

To be the leading total lighting solution provider in ASEAN.

# MISSION

01

## DIVERSE PRODUCTS

Offer diverse and complete range of lighting products to meet every sector's requirement.

02

## WELL-COVERED NETWORK

Establish well-covered marketing networks accessible to various group of customers.

03

## FULLY INTEGRATED SERVICES

Provide fully integrated services for customers' advantage.

04

## HIGH STANDARD MANUFACTURING

Establish high standard facilities with modern and efficient manufacturing process to respond to the market requirement.

05

## MODERN INNOVATION

Establish Lighting Innovation Center to proactively innovate and develop new products to meet market requirement and establish a world class testing laboratory to facilitate new products development and innovation.

# TIMELINE

more than light

## 1993

Started with 25 million Baht registered capital and acquired the business from Yong Enterprise Ltd. Part., a company marketing fluorescent luminaire to electrical contractors. Expanded the business to cover government agencies and has become agents for many world-class Lighting manufacturers.

## 1999

Strengthen the company competitiveness by acquiring T.S. Trunking Co. Ltd. (name has now been changed to L&E Manufacturing Co. Ltd.) which manufactures whole range of fluorescent lighting luminaries and trunking products. Started to expand to export market to benefit from the weak Baht at that time.

## 1994-1998

Expanded business by offering diverse range of lighting products. Provided lighting design and recommended proper use of lighting products to provide better value to customers. Expanded marketing network to cover project and wholesale activities.

## 2000-2003

Expanded business to cover modern trade market and included extensive range of decorative lighting products for residential. Established the Lighting Application Center for demonstration to customers how lighting products can be effectively applied for various applications. Developed and improved MIS and logistics system so that the company can provide faster and better services to customers.

## 2004

Increased registered capital to 137.50 million Baht, became a public company and listed in the Stock Exchange of Thailand

## 2005

Expanded manufacturing facilities to enable the company to manufacture whole range of indoor and outdoor lighting luminaries. Established representative office in Vietnam.

# MAJOR MILESTONE

Lighting & Equipment Public Company Limited operates a fully integrated business in lighting products, from research and product development, has its own IEC/ISO 17025 accredited laboratory and ISO 9001 accredited manufacturing factories as well as distributes the products to all customer groups in domestic and abroad. In addition, the company provides various services for maximum benefit to customers, i.e. recommend proper products including provide lighting designs for each application, as well as offer rental products and rental lighting systems for various events. The company has diverse and complete range of lighting products that can meet the requirement of all customer groups. i.e. residential, office, commercial building, department store, showroom, retail store, museum ,manufacturing factory, warehouse, historical structure, public park, stadium, street, airport, advertising box, etc.

## 2006

Granted 5 years corporate income tax holiday by Board of Investment for the factory expansion and manufacturing modernization of the company to improve productivity and reduce production cost.

## 2008

Granted Top Corporate Governance Awards, mai from Stock Exchange of Thailand.

## 2010

Granted IEC/ISO 17025 accreditation for lighting luminaries laboratory and ISO 9001:2008 accreditation for lighting luminaries manufacturing. Granted Top Corporate Governance Awards : mai from Stock Exchange of Thailand

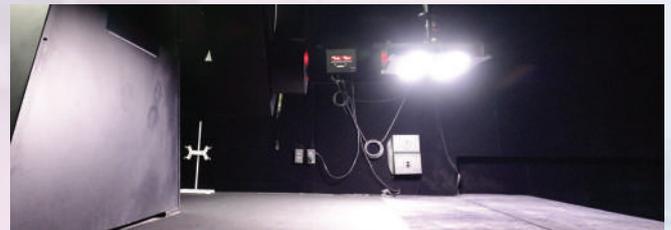

## 2011

Established L&E Solid State Co. Ltd. to manufacture LED products which is the first Thai factory manufacturing LED lamps for lighting.

## 2007

Increased registered capital to 305.70 million Baht and established lighting luminaire laboratory for research and develop of lighting products as well as product quality test to ensure that products delivered to customers have good quality and meet standard.

## 2009

Established Lighting Solution Center, the showroom that completed with diverse range of lighting products for various life-styles, experienced lighting designers to provide recommendation and lighting design to customers including lighting showcases for customers to experience light effect, to expand marketing channel to retail customers.

## 2012-2013

Constantly develop LED products and launch them into the market and expand business into AEC market.  
Create slogan " L&E more than...light " for communication to the market.

more than light

## 2015

Opened new manufacturing factories and warehouses at Ladloomkaew district, Pathumthani province, total space 80,000 SQM. comprised of : Warehouse and distribution center, total space 16,000 SQM. Assembly factory total space 5,800 SQM. LED lamps, LED components and certain LED luminaires manufacturing. factories under the subsidiary : L&E Solid State Co.,Ltd., total space 8,500 SQM. lighting luminaires and lighting poles manufacturing. factories under the subsidiary : L&E Manufacturing Co.,Ltd., total space 7,600 SQM. Established L&E Myanmar Co.,Ltd. a subsidiary in Yangon, The Republic of the Union of Myanmar.

## 2014

Penetrated into the consumer market by advertising it's LED lamps for the first time in the television media and other media. Increased registered capital to 494.2 million Baht. Reduced the company's PAR value from 5 Baht to 1 Baht. shift the transaction of the company's share from mai market to SET market. Opened an additional showroom, Lighting Solution Center on Ratchaprerk road.

## 2016 - 2017

- Established a wholly-own subsidiary, the Lighting & Equipment (Vietnam) Co., Ltd. In Dong Nai, Vietnam with the intention to import lighting product from Head Office for resale in Vietnamese market, and to manufacture lighting products for sale in Vietnamese market as well as for sale to Head Office in Thailand.
- All the 3 manufacturing factories under the company L&E Manufacturing Co., Ltd. (LEM) at Latlumkaeo Pathumthani and L&E Solid State Co., Ltd. (LES) has been assessed and conformed to the environmental system ISO 14001:2015 (TIS 14001-2559)

## 2018

The Grand Opening ceremony of Lighting & Equipment (Vietnam) Co.,Ltd., 12 December 2018 at Amata Industrial Estate, Dong Nai City, Vietnam.

## 2019

L&E was certified as Thai Innovation and Invention account by Budget Bureau about 2 products Horticultural LED Lighting and LED T8 - L&E Manufacturing Co.,Ltd. (LEM.) has been assessed and found to be conforming to the requirements of TIS 45001-2561 (ISO 45001-2018)

## 2020

- Aiming to the market for various innovative lighting products such as IOT products, lighting used in Agriculture and Medical industry, etc.  
- Add a business model (Business Model) "Efficient Value Chain Management" to support mass production In order export to large customers abroad.

## 2021

New Business to the Lighting and Entertainment Technology Provider

# TYPE OF LED LUMINAIRE

Product range of L&E LED luminaires are divided into 2 categories.  
Each category use different LED light sources.

## 1. Empty luminaires

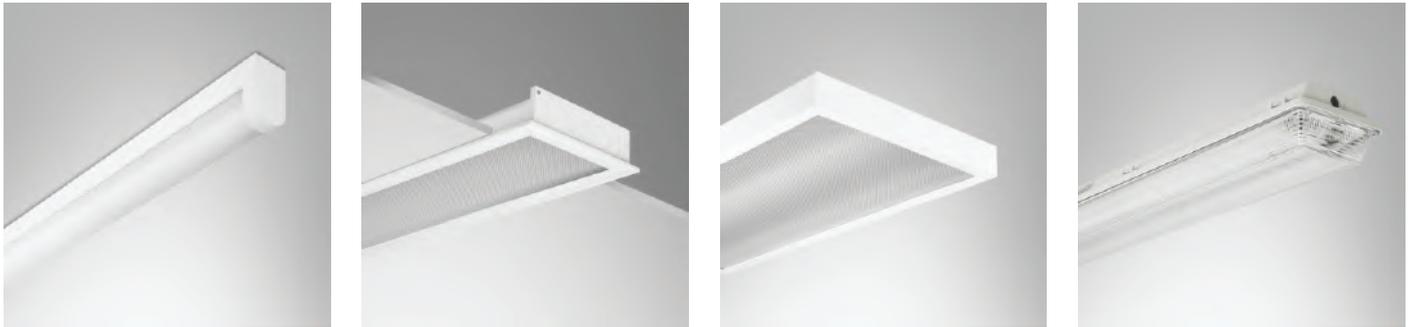

It is suitable to use with retrofit lamps as of easy maintenance and installation, but not suitable for some application because its shape or technical term.

The most popular LED light sources for Empty luminaires are as follows:

- **LED-T8**, it become more and more popular to replace T5/T8 fluorescent lamps because low power consumption and low cost as well, but same lumen output as fluorescent lamps. This lamp easy to replace with existing conventional recessed or surface office or industrial luminaires, just replace it ( no need to use existing ballast ). Anyway, this kind of lamp has different wiring connection. Improper wiring connection may cause problem.

## Warning

Please be noted that for the above mentioned lamps, most of them is recommended to use with indoor luminaires except some items indentified that can be used for outdoor applications, but do not recommend to use with totally enclosed luminaires ( except some luminaire has enough space for adequate heat dissipation )

## 2. Completed set luminaires

Driver : Separated or integrated depend on each luminaire.

The LED light source for completed set luminaires are divided by 2 categories.

- **LED-Module**, it has various shape such as square, circular, rectangular, etc. Moreover, size and shape can be made according to luminaire's supplier. Therefore, luminaire's supplier will design their own designed luminaire in various shape to suit all kind of lighting applications.

LED-Module can be combined with reflector or lens in order to get different light distribution such as narrow light distribution, asymmetrical light distribution, street lighting distribution, etc.

# CRITERIA OF LUMINAIRES

## IP code

IEC 60529 : Degrees of protection provided by enclosures

The first number : Degree of protected against Solid foreign objects

-  0 No protection
-  1 Protected against solid foreign objects of 50 mm Ø and greater.
-  2 Protected against solid foreign objects of 12.5 mm Ø and greater.
-  3 Protected against solid foreign objects of 2.5 mm Ø and greater.
-  4 Protected against solid foreign objects of 1.0 mm Ø and greater.
-  5 Dust-protected
-  6 Dust-tight

The second number : Degree of protected against water

-  0 No protection
-  1 Protected against vertically falling water drops.
-  2 Protected against vertically falling water drops when enclosure tilted up to 15°.
-  3 Protected against spraying water at angle up to 60°.
-  4 Protected against splashing water from any direction.
-  5 Protected against water jets from any direction.
-  6 Protected against powerful water jets from any direction.
-  7 Protected against the effects of temporary immersion in water.
-  8 Protected against the effects of continuous immersion in water.

Example:

## Protection against electric shock

IEC 60598-1 : Classification according to type of protection against electric shock.

-  Class I  
Luminaires provided with basic insulation and ground wire connection.
-  Class II  
Luminaires provided with double or reinforced insulation, no provision for ground wire connection.
-  Class III  
Luminaires suitable for safety extra-low voltage (SELV) power supply (not exceed 50 VAC or 120 VDC).

\* Protection against electric shock is also known as luminaires class/ protection class/insulation class.

## Correlated Color Temperature (CCT)

ANSI C78.377-2017 : Chromaticity specifications for solid state lighting products (LED products).

Nominal CCT Category (K)	CCT Range (K)
2200	2238 ± 102
2500	2460 ± 120
2700	2725 ± 145
3000	3045 ± 175
3500	3465 ± 245
4000	3985 ± 275
4500	4503 ± 243
5000	5029 ± 283
5700	5667 ± 355
6500	6532 ± 510

\* CCT Range is "Target CCT and Tolerance (K)".

## IK code

IEC 62262 : Degrees of protection provided by enclosures for electrical equipment against external mechanical impacts.

- IK00 There is no protection.
- IK01 Protected against 0.14 joules of impact (equivalent to the impact of a 0.25kg mass dropped from 56mm above the impacted surface)
- IK02 Protected against 0.2 joules of impact (equivalent to the impact of a 0.25kg mass dropped from 80mm above the impacted surface)
- IK03 Protected against 0.35 joules of impact (equivalent to the impact of a 0.25kg mass dropped from 140mm above the impacted surface)
- IK04 Protected against 0.5 joules of impact (equivalent to the impact of a 0.25kg mass dropped from 200mm above the impacted surface)
- IK05 Protected against 0.7 joules of impact (equivalent to the impact of a 0.25kg mass dropped from 280mm above the impacted surface)
- IK06 Protected against 1 joules of impact (equivalent to the impact of a 0.25kg mass dropped from 400mm above the impacted surface)
- IK07 Protected against 2 joules of impact (equivalent to the impact of a 0.5kg mass dropped from 400mm above the impacted surface)
- IK08 Protected against 5 joules of impact (equivalent to the impact of a 1.7kg mass dropped from 300mm above the impacted surface)
- IK09 Protected against 10 joules of impact (equivalent to the impact of a 5kg mass dropped from 200mm above the impacted surface)
- IK10 Protected against 20 joules of impact (equivalent to the impact of a 5kg mass dropped from 400mm above the impacted surface)

## LED Lifetime

The lifetime of a LED (LED chip, LED module, LED COB) is defined as the time it takes until its light output, or lumen maintenance reach 70% of the initial output (L70).

## Lamp Lifetime

Lamp (Retrofit lamp) lifetime is not the same meaning of LED lifetime, because of there are many other components that are used included driver, optic, mechanical fixing and housing.

Then, the lifetime of lamp (Retrofit lamp) is determined by considering "Time to 70% lumen maintenance of lamp (Retrofit lamp)" and "Lifetime of components".

## Luminaire Lifetime

Luminaire lifetime is not the same meaning of LED lifetime, because of there are many other components that are used included driver, optic, mechanical fixing and housing.

Then, the lifetime of luminaire is determined by considering "Time to 70% lumen maintenance of luminaire" and "Lifetime of components".

## LED Output

It is the luminous flux come out from LED (LED module, LED COB) in every direction and gather in total in term of lumen. Normally, this value is specified by LED Manufacturer.

## Lamp Output

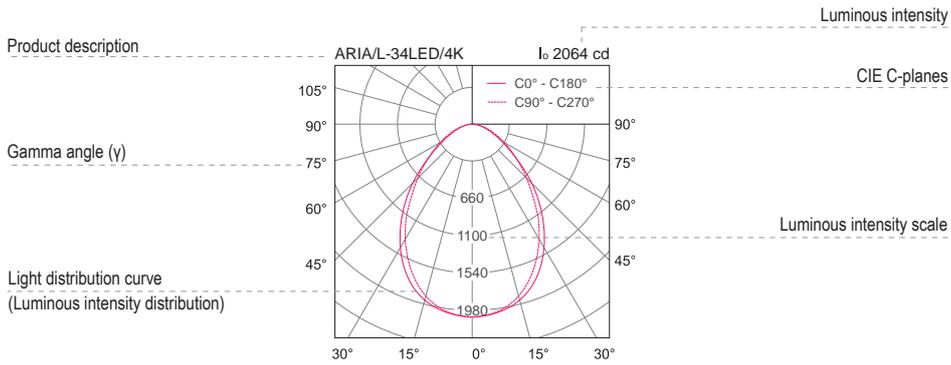

It is the luminous flux come out from lamp (Retrofit lamp) in every direction and gather in total in term of lumen.

## Luminaire Output

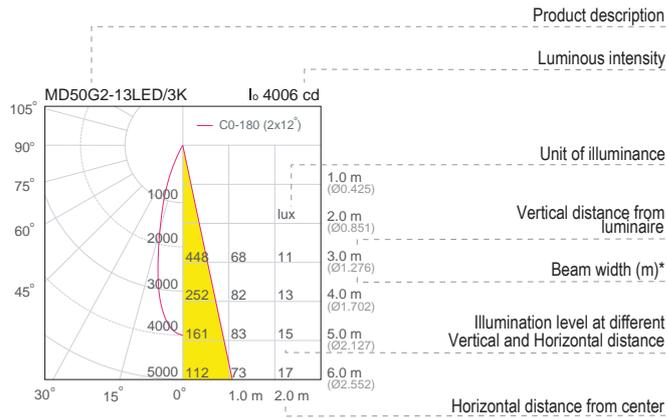

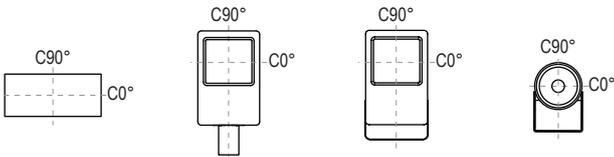

It is the luminous flux come out from luminaire in every direction and gather in total in term of lumen.

Normally, it is not equal to Lamp Output caused of there are many factor when fit lamp (Retrofit lamp) in luminaire, such as reflector, lens, housing, etc. These parts will effect or distort lumen output from lamp (Retrofit lamp).

**Photometric data**

Remark : Relative position of luminaire to the co-ordinate system.

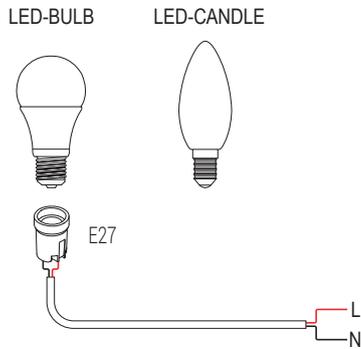

Remark : Beam width (m) is diameter of beam angle at different vertical distance.

**Particular symbol**

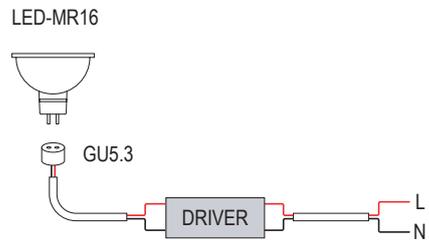

- Ceiling or wall, cutout for round recessed luminaire
- Ceiling or wall, cutout for square recessed luminaire
- Vertical adjustment from 0° to 30°
- Horizontal adjustment from 0° to 358°
- Two axis adjustment from 0° to 30°

# WIRING Diagram

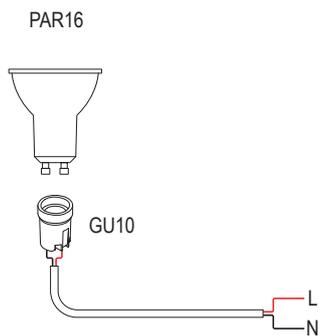

## LED-BULB

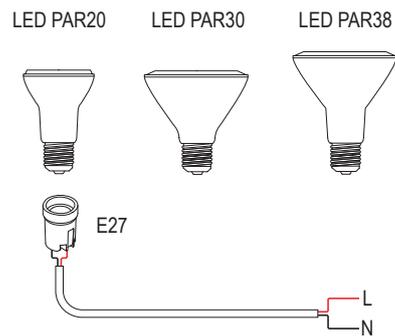

## LED-MR16

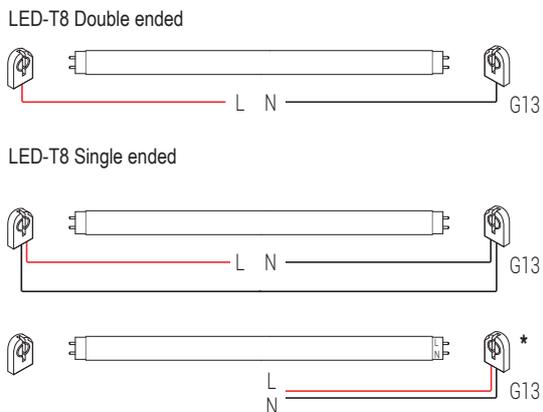

## LED PAR16

## LED PAR20/30/38

## LED-T8

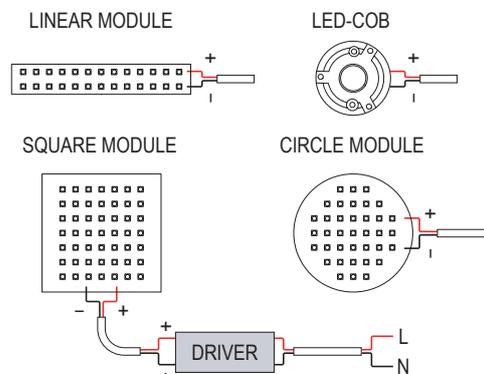

\* Please make sure to put the lamp on the right side (L, N)

### Remark

In Thailand the power system is 220V, 50Hz for other countries may difference.

## LED Clean Room

TS LRCRM300/RO/CT

**Application**  
Clean room is designed for unique application which is require limitation of dust such as food processing areas, control rooms, etc.

**Specification**

<b>Housing</b>	Die-formed cold roll steel Service method : Rear opening Sealing : Triple gasketing system
<b>Description</b>	Can use for clean room class 10,000 or higher
<b>Finishing</b>	Powder coated in white
<b>Diffuser</b>	Prismatic (Opal, stipple, clear are available as option)
<b>Mounting</b>	Recessed
<b>Power</b>	2S : 14-18W (2 lamps) 2L : 28-32W (2 lamps)
<b>Light Source</b>	LED-T8
<b>Lamp Holder</b>	G13
<b>Colour Temperature</b>	3000/4000/6500K
<b>Lamp Output</b>	2S : L&E : 2x7/8/9W : 2x1050 lm 2L : L&E : 2x14/16W : 2x2100 lm
<b>Luminaire Output</b>	2S : 14/16/18W : 1525 lm 2L : 28/32W : 3050 lm
<b>Power Supply</b>	220-240VAC, 50Hz
<b>Insulation Class</b>	I
<b>IP Rating</b>	50
<b>LED Lifetime</b>	L&E : 25,000/50,000 hrs.
<b>Equivalent</b>	14-18W : T5 2x14W/T8 2X18W 28-32W : T5 2x28W/T8 2X36W

## LED-LINEAR MODULE

### Application

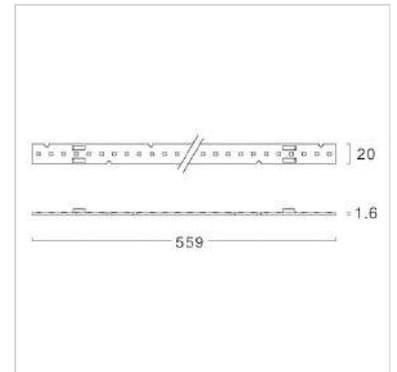

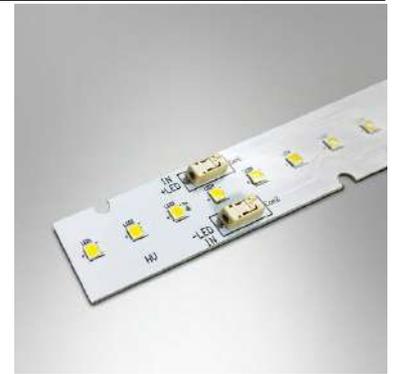

The LED Linear Module is designed to replace T8 fluorescent lamp which meet lux level requirement, but less power consumption and more longer lifetime.

### Specification

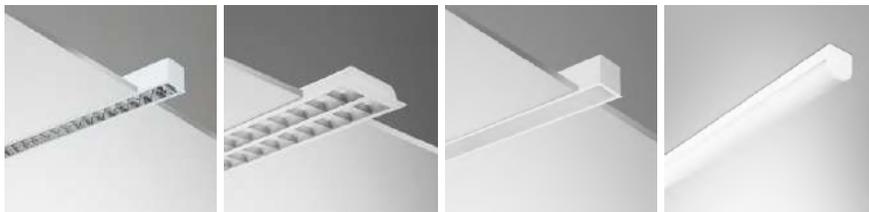

<b>Structure</b>	PCB LED TYPE
<b>Power</b>	16.5W
<b>Light Source</b>	LED-SMD
<b>Colour Temperature</b>	3000/4000K/6500K
<b>LED Output</b>	2200lm
<b>Control Gear</b>	Separated driver is required
<b>LED Lifetime</b>	50,000 hrs.
<b>Remarks</b>	Compatible with L&E driver or other brands ,240mA : (16.5W)

## TIS LED-COB

### Application

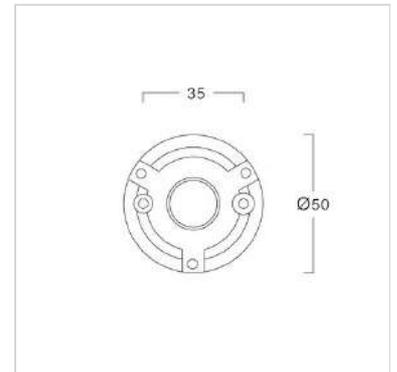

This is a very powerful LED light source which is replaced compact metal halide lamp

### Specification

<b>Housing</b>	Robust plastic material
<b>Description</b>	Operating case temp. -40-80 degree CRI > 90
<b>Mounting</b>	Fix thermal pad or grease on back side and fix to heatsink
<b>Power</b>	2000LM(21W) 3000LM(32W) 3000LM(32W)
<b>Light Source</b>	LED-COB
<b>Colour Temperature</b>	940/930
<b>LED Output</b>	105-141 Lumen/Watt
<b>Control Gear</b>	Separate driver
<b>LED Lifetime</b>	50,000 hrs.
<b>Equivalent</b>	Compact metal halide : 35/70W
<b>Remarks</b>	Compatible with L&E driver or other brands ,500/800mA : ( 21/ 32W ) *

## TIS LED-CANDLE

### Application

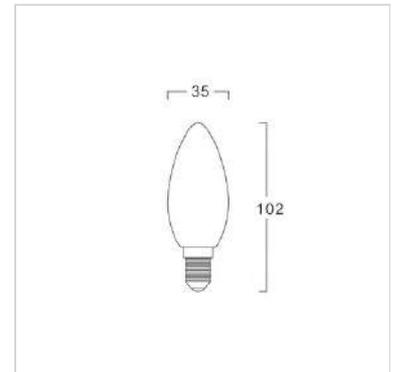

This lamp is designed to replace CANDLE halogen lamp for energy saving, long life time and low maintenance cost.

### Specification

<b>Description</b>	Dimmable Do not use in enclosed fixture CRI > 80
<b>Body Colour</b>	White
<b>Power</b>	6W
<b>Lamp Holder</b>	E14
<b>Colour Temperature</b>	2700K
<b>Lamp Output</b>	470 lm
<b>Control Gear</b>	Built-in driver
<b>Power Supply</b>	220VAC, 50Hz
<b>Lamp Lifetime</b>	25,000 hrs.
<b>Equivalent</b>	Candle lamp

## Application

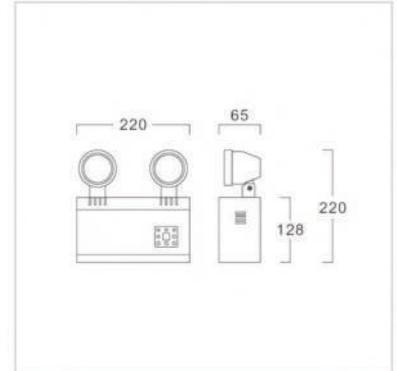

This luminaire is designed to use for safety reason in case of emergency situation.

## Specification

<b>Housing</b>	Electro-galvanized steel
<b>Finishing</b>	Epoxy powder coated in white grey
<b>Charger</b>	Fully automatic solid stage with constant voltage and limit current charging
<b>Battery</b>	Lithium Iron Phosphate, 3.2V 6Ah
<b>Dimension</b>	220x65x220 mm.
<b>Mounting</b>	Surface
<b>Safety</b>	Low-high voltage cut-off to protect under discharge, over charge of battery. AC/DC fuse is well prepared to protect input and output short circuit
<b>Power</b>	2x9W
<b>Light Source</b>	LED Module
<b>Colour Temperature</b>	3500K
<b>Luminaire Output</b>	2x420 lm
<b>Power Supply</b>	220-240VAC,50Hz
<b>Insulation Class</b>	I
<b>IP Rating</b>	20

# Obstruction Light

## OBR1/SH

### Application

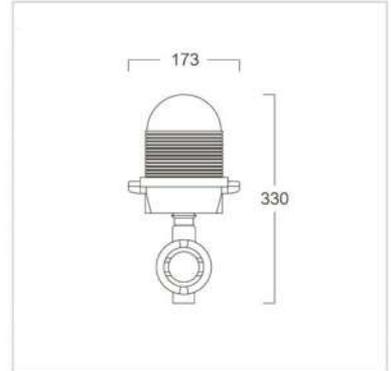

Obstruction Lights, serve as critical safety features to alert pilots about tall structures that could pose hazards during air navigation, prevent collisions with obstacles such as tall buildings, towers, or antennas. They provide a continuous and steady illumination, helping pilots identify and avoid these structures in low visibility conditions.

### Specification

<b>Housing</b>	Die-cast aluminium
<b>Finishing</b>	Powder coated in black
<b>Lens</b>	Red globe made of polycarbonate
<b>Gasket</b>	Silicone rubber
<b>Dimension</b>	173x330 mm.
<b>Mounting</b>	Threaded 3/4" bottom hub
<b>Power</b>	7W
<b>Light Source</b>	LED-BULB
<b>Beam Angle</b>	360 degree
<b>Power Supply</b>	220-240VAC,50Hz
<b>Insulation Class</b>	I
<b>IP Rating</b>	65
<b>Lamp Lifetime</b>	25,000 hrs.
